TURKISH JOURNAL OF GERIATRICS

PUBLICATION POLICY

Turkish Journal of Geriatrics is a peer-reviewed journal and is devoted to high standards of scientific rules and publication ethics. The Editors of the Journal accept to follow 'Editorial Policy' of the 'Council of Science Editors' (www.councilscienceeditors.org/).

Any article published in the journal is also published in electronic format and is shown at <http://www.turkgeriatri.org> or <http://www.geriatri.dergisi.org/>

Instructions for authors are based on the report of International Committee of Medical Journal Editors (Last Version)- (Uniform Requirements for manuscripts Submitted to Biomedical Journals, www.icmje.org).

Editor in Chief: Prof. Yesim GOKCE-KUTSAL, MD

Owner: Turkish Geriatrics Society www.turkgeriatri.org

INSTRUCTIONS FOR AUTHORS

Turkish Journal of Geriatrics is the official publication of Turkish Geriatrics Society and is published four times a year. Articles published in the journal are shown at <http://www.turkgeriatri.org> & <http://www.geriatri.dergisi.org>

Turkish Journal of Geriatrics is a peer-reviewed journal and is devoted to high standards of scientific rules and publication ethics. The Editorial Board Members of the Journal accept to follow 'Editorial Policy' of the 'Council of Science Editors' (www.councilscienceeditors.org/) and the guidelines provided by the Committee on Publication Ethics (COPE), the World Association of Medical Editors (WAME), the International Committee of Medical Journal Editors (ICMJE) for dealing with scientific misconduct, such as falsification of data, plagiarism, improprieties of authorship, violation of generally accepted research practices and redundant publication and duplicate publication.

Instructions for authors are based on the report of International Committee of Medical Journal Editors (Uniform Requirements for manuscripts Submitted to Biomedical Journals, www.icmje.org).

Manuscripts must be original and not under consideration by another publication at the time of submission. The authors must ensure that they have read and understood the details noted in the publication policy of our journal. Failure to comply can lead to delays in the processing of the manuscript, or even rejection.

INSTRUCTIONS FOR AUTHORS

Official language of the journal is **English**. Turkish Journal of Geriatrics invites submission of Original Articles based on clinical and laboratory studies. Review Articles are published only after the invitation from the Editorial Board.

Manuscripts and the necessary documents should be submitted online at: Online Manuscript Submission.

Authors are advised to keep a copy of their papers for reference. It is the responsibility of **all authors** to agree on the content of their paper before submission.

As recommended by TÜBİTAK ULAKBİM, the authors should get their **ORCID** (Open Researcher and Contributor ID) numbers from the web address free of charge: <http://orcid.org>

Preparation of Manuscript

Papers must be written in English. Authors should have their papers checked for linguistic accuracy by a native English speaker. For the language editing of the article and to get the **“Formal Certificate of Language Control and Correction”**, contact to the below addresses:

EDITAGE <https://www.editage.com>, **WILEY** <https://www.wiley.com/en-tr>, **SCRIBENDI** <https://www.scribendi.com>, **AMERICAN JOURNAL EXPERTS** <http://www.journalexperts.com>

The corrected manuscript should be sent to the journal after it has received the **“formal certificate of language control and correction”** – this certificate should be uploaded to journal on line system with the manuscript.

Articles published in the Turkish Journal of Geriatrics should be prepared in ethical rules. The ethical responsibilities of the articles belong to the authors. For all the studies both conducted on human beings and animals as well as drug research, ethical committee approval should be taken and a signed copy of **“Ethical Committee Approval”** should be uploaded to the journal system.

The manuscripts will not be published without a copy of the “ethical committee approval” document. For all the studies conducted on human beings **“Informed Consent”** of all the participants of the study should be taken.

Authors should obey the rules in **“Helsinki Declaration”**, **“Good Medical Practice Guidelines”**, and **“Good Laboratories Practice Guidelines”**.

Names of the patients, protocol numbers, etc which identify participants’ identities should not be used in the manuscript. If the editorial board finds necessary, the admitted articles will be reviewed not only by the scientific advisors, but by the ethical advisors of the journal as well. Authors submitting an article must accept this situation.

All of the articles submitted to the Turkish Journal of Geriatrics should fit to the **“Information of authors”** details. The assessment process will not start until this step is completed.

Via online submission 1) English Title, 2) Names, Surnames and Titles of the authors, 3) Institutions, 4) Present communication details should be loaded to the system. Original articles and Invited Reviews should be between 1500-3500 words (excluding Abstract). When a manuscript is submitted, authors must provide a word count for both the abstract and the text. Editors can request that authors shorten their papers further.

The text of observational and experimental articles should be divided into sections with the headings Introduction, Materials and Method, Results, and Discussion. Long articles may need subheadings within some sections (especially the Results and Discussion sections) to clarify their content. Invited reviews and editorials are likely to take their own relevant main headings.

Abstract. A structured abstract of not more than 250 words in English should be structured, including Introduction, Materials and Method, Results, and Conclusion. New and important observations or aspects of the study should be emphasized. Abstracts of the review articles should be a brief overview of the main points from the review. Abstracts should reflect the whole manuscript and the consistency between the text. No abbreviations should be used in this section.

Keywords. Up to six keywords should be provided that might be used by researchers searching bibliographic databases for the paper. The authors have to use terms from the Medical Subjects Headings list from Index Medicus. (www.nlm.nih.gov/mesh/MBrowser.html)

Introduction. Acquaint the readers with the problem and with the findings of others. Quote the most pertinent papers and state clearly the nature and purpose of the work.

Materials and Method. Your clinical, technical or experimental procedures should be clearly explained. Previously published papers related to methods should be cited. Ethical approval of the study should be mentioned here.

Results. Findings must be described without comment. A concise textual description of the data presented in tables, charts and figures should also be included.

Discussion. Comment on your findings and relate them to those from other authors. You should define their relevance to experimental research or clinical practice.

References. The author is responsible for the accuracy of the references. Citations in the text should be identified by numbers in standard brackets. The list of the references at the end of the paper should be given according to their first appearance in the text. Journal abbreviations should be used as listed in Index Medicus.
